To whom it may concern,

Westsun Solar are currently completing a 1MW solar and battery storage project on the Western Power Forrestdale South Depot for Adco Constructions.

Their service has been professional, and the workmanship has been to a high standard. It's evident that the team at Westsun takes pride in their work.

We would have no hesitations in using Westsun Solar for our solar solutions on future projects.

Kind regards,
ADCO Constructions Pty Ltd

Tavis Philson
Project Manager

Western Power, Forrestdale
1.2MW System + 1MW Tesla
